Please indicate any special access or participation needs (specify):

INSTITUTIONAL PROGRAM DESCRIPTION

Please attach to this application form (a) a description no longer than one page of your institution's existing program involvement in the theological exploration of vocation and (b) an outline of your institution's plans for further development of the program (also not more than one page). These descriptions will help the conference planners to develop a better understanding of the background of each participating institution for purposes of program development and the formation of discussion groups. They will also aid the program planning committee in selecting institutions to participate in the event that the number of applicants exceeds the space available.
